POWER COMMUNITY

Credit Fairy

There's no magic to improving your credit. But there is help. And it's free. Go to www.creditfairy.org. Brought to you by the Consumer Bankers Foundation, the Leadership Conference on Civil Rights Education Fund and The Ad Council.

College Access

Don't be afraid to take on the tough classes in high school. You need them to succeed in college. To find out what most colleges require, visit www.KnowHow2GO.org. Brought to you by the American Council on Education, Lumina Foundation for Education and The Ad Council.

Be A Dad Today

The smallest moments can have the biggest impact on a child's life. So take time to be a dad today. Learn more at 877-4DAD411 or visit www.fatherhood.org. Brought to you by U.S. Department of Health and Human Services and The Ad Council.

Hit Home

Your mother spends the next 10 years worrying about you, every single night. Or your little brother spends 7 years without having his best friend around to play with. Or your little sister spends 5 years walking all the way home from school by herself. When you commit a gun crime, it's not just you who pays the price. It's your entire family. Gun crimes hit home. A public service announcement brought to you by Project Safe Neighborhoods and The Ad Council.

Think Before You Post

When you share your image online, you're sharing it with the world. That's because anything you post, anyone can see. So, don't let your private life become public - Think before you post. For more information, visit www.cybertipline.com. This message brought to you by the US Department of Justice, the National Center for Missing & Exploited Children, and the Ad Council.

Lower Car Payments

Are you looking for a way to lower your monthly expenses during these uncertain economic times? Have you thought about buying a new car? Consider this...purchase incentives are probably the biggest in automotive history. Low interest rates are everywhere and, yes, there is plenty of car financing available. If there were ever a time when buying a new car could actually lower your monthly payments, that time is now. A new car, and lower payments. Your Southern California radio stations invite you to call your local dealer and see for yourself.

Pick Up After Your Pet

It is important that as dog owners, we do our part and pick up after our pet and remind our neighbors and friends to do the same. This is especially important because if your neighbor isn't picking up after their dog, you and your healthy pet have the potential to be affected by their negligence. Unattended dog waste gets unintentionally washed down into our storm drain system when it rains. This toxic mix of dog waste and water then flows untreated into our local waterways and ocean. The bacteria found in the fecal matter affects our aquatic life, those who swim at our beaches, the tourism industry and our economy. This is a consequence that can negatively impact not only our pet's health, but our own health as well. Remember to do the right thing. Pick up after your dog and continue to protect our pets and the environment. Take action today by calling (800) 974-9794 to receive a free dispenser with doggie waste bags.

For more information on how you can help prevent stormwater pollution, please call (800) 974-9794 or visit LAstormwater.org.
